

Statement of Intent

Active Swim is committed to fair assessment and should be given sufficient opportunities to pass tutor-assessed units during a course. However, adjustments and special considerations may need to be reviewed.

Reasonable adjustment: This is where measures are put in place for a learner who is disadvantaged as a result of a disability or other individual circumstances. This impact is assessed before the start of the qualification by *Active Swim*.

Special consideration: This is where measures are put in place for a learner who is disadvantaged as a result of a disability or other individual circumstances at the point of assessment. The impact of this is assessed at the point of assessment.

Implementing this policy

Currently, assessment methods for all Swim England Qualifications are flexible to ensure individual learner needs are met and the learner achieves at the highest level possible. Therefore, reasonable adjustments and special consideration are integral to the qualification. Active Swim supports learners to progress at a rate appropriate to their ability as long as they achieve within the registration period. Therefore, if a learner is too ill to complete an assessment, the ATC can offer alternative timings without notification to Swim England Qualifications unless this is outside of the registration period.

Appropriate reasonable adjustments and special considerations will be identified and recorded by the Approved Training Centre using the reasonable adjustments notification supplied by SEQ. An extension to a learner's registration period may be required due to a reasonable adjustment or special consideration request. Where learners are eligible, this will be granted. Reasonable adjustments and special considerations may take many forms. However, they will only be granted where the validity and reliability of the qualification are maintained, and the adjustment does not offer an unfair advantage to the learner receiving the reasonable adjustment or special consideration.

Active Swim will contact Swim England Qualifications for advice and guidance if a learner requires reasonable adjustments and/or special considerations and the ATC requires clarification of the appropriateness.

Active Swim understands as if, as an ATC, inappropriate reasonable adjustments and/or special considerations are offered, then sanctions will be applied as stated in the Malpractice and Maladministration Policy and Approved Training Centre status can be withdrawn.

Appropriate reasonable adjustments and special considerations will be identified and recorded by the Approved Training Centre using the reasonable adjustments notification (appendix 2) and special considerations request (appendix 3) supplied by SEQ.

It is also worth noting that Swim England Qualifications are directly linked to job roles. Although reasonable adjustments and special considerations may be made, these will not be extended where the job role cannot be completed, or the qualification requirements are not met.

Through internal quality assurance measures, Active Swim will ensure that as an SEQ ATC, we ensure that appropriate reasonable adjustments and special considerations are implemented in line with this Policy and following Equalities Law.

[If you \(the learner\) do not agree with a RA or SC, you can submit an appeal. Please see the Appeals process.](#)

Monitoring and review of the policy

This policy and its procedures will be reviewed to ensure that it remains fit for purpose and reflects the types of reasonable adjustments or special consideration that may arise and how access arrangements are managed following the requirements of Equalities Law
